# TEN MILLION DOLLAR FIRE AT PATERSON.

## New Jersey City at the Mercy of Flames and Wind.

### Eleven People Killed and Eight Injured at St. Louis in the Destruction of the Empire Hotel—Burning of Big Railroad Pier and Much Shipping.

(BY THE NEW ASSOCIATED PRESS—P.M.)

PATERSON (N. J.) Feb. 9.—A great fire swept through Paterson today, and in its desolate wake are the embers and ashes of property valued at \$10,000,000.

It burned its way through the business section of the city, and claimed as its own a majority of the finest structures devoted to commercial, civic, educational and religious use, as well as scores of homes.

There was but small tribute of life and injury to the conflagration, but hundreds were left homeless, and thousands without employment. A relief movement for the care of those unsheltered and unprovided for has already been organized, and Maj. John Hinchcliffe said tonight that Paterson would be able to care for her own without appealing to the charity of other communities and States.

The great manufacturing plants of the place are safe, and the community, temporarily dazed by the calamity, has already commenced the work of reconstruction and restoration. The fire came last night at midnight, and was only checked after a desperate fight that lasted until late this afternoon.

The fire began its work of destruction at the corner of Church and Ellison streets, where it encountered the old City Hall, a great classic stone building. It was in this second great fire that the volunteer firemen from the outside cities did their most heroic and effective work. They fell back only when they had to, and when the natural obstacles intervened they seized their chance and stopped the fire.

The final and one of the most desperate fights of the day occurred in mid-afternoon, back in the first fire area, at the Hamilton Club, situated at the corner of Church and Ellison streets. The handsome clubhouse, caught, and the exhausted firemen were killed, around it. They were anxious to save the structure, and besides, failure meant that the fire might take new headway among the premises.

The four walls of the clubhouse, the roof and the interior were completely burned out.

Paterson rests in a valley, and the conflagration from the hills that it in, columns of flame climbed high in the air, and shed their light for miles. Hundreds of people gathered in the city before daylight to watch the work of destruction at close range, and when the day came thousands more joined the throng to see the progress of the spectacle, that attracted people from New York and every outlying town in New Jersey. They crowded the regular streets, and the sidewalks were so packed that it was impossible to move. Police lines were impossible, and through the day they poured in an endless stream through the desolate streets.

Great pinnacles of ruined brick stood in every street, but the crowds passed under them, unmindful of the warnings of police and firemen. With the crowd came thieves and looters, but there was not much pillaging. Under orders from Gov. Murphy, Col. A. C. K. and M. of the Fifth Infantry, National Guard, and the plant and stores were held in readiness as a reserve force. The police, deputy sheriffs, hundreds of special watchmen and firemen, in protecting property during the day, and when night came a grim order clearing the streets was issued by the city and county authorities. Despite the precaution of the authorities, there was much confusion in the streets at night. The destruction of wires left the city in darkness, and for the dull glow given off by the fires, and the glow from the great fire areas. Hundreds of belated visitors crowded around the debris and struggled in the darkness for places in the overcrowded trains. The street railway system was also severely injured through the burning of its wires.

Early in the day the Mayor issued an order forbidding the sale of liquor, but was not obeyed, however, and there was considerable drunkenness.

Late tonight the fire still burned, though it has been well under control since mid-afternoon. The fire interior of the Hamilton Club, which was the last of the buildings of prominence to suffer, was cracking, and its walls were reddened by the glow from the slowly-expiring flames within and around. Many of the citizens were still about the streets, but the cordon kept by the militiamen was quite rigid. The quarter they were guarding was alive with firemen and fire machinery, and eagons were being run in a small way to clear away debris.

The Sunday Chronicle issued an extra at 2 o'clock this morning, giving the story of the first two hours of the fire. At 4 o'clock the fire spread down Ellison street, attacked the Chronicle office and completely destroyed it.

What started the fire is not certain, but it is thought that one of the feed wires running into the car barns was responsible. From the barns, the flames leaped to the other buildings, and it is thought that one of the feed wires running into the car barns was responsible. # FOREMOST MEASURES.

## Philippine Bill in the Senate.

## Final Debate on Oleo in the House.

## Appropriation Bills to Come Forward This Week.

## President at His Son's Bed- side—May Be Absent Several Days.

WASHINGTON, Feb. 9.—The Philippine question will continue to hold the foremost place on the Senate calendar during the present week, but there is little probability that the Philippine bill will be disposed of before the close of the week. Democratic Senators say they will require several weeks more time in which to consider the measure. Senator Lodge, as chairman of the committee having the bill in charge, has not failed to impress upon them his intention of pressing it with the utmost dispatch consistent with due consideration of so important a measure.

There are several Democratic Senators prepared to speak on the bill. Senator Quayle will report the Permanent Census Bill tomorrow, when the Philippine bill is taken up, and will make an effort to secure immediate consideration. If he succeeds, the census bill probably will alternate with the Philippine bill for a few days. Senator Quayle hopes that the census bill may be passed without much delay.

A varied programme confronts the Senate for the coming week. Owing to the absence of a large number of Republicans, who will go to different points of the country to participate in the celebration of Lincoln's birthday, Wednesday, consideration of the bill to repeal the war taxes will be postponed until next week. Tomorrow is District of Columbia day. Tuesday consideration of the Oleomargarine Bill will be resumed under the agreement made last week to devote another day to general debate, followed by a day of debate under the five-minute rule. The passage of the bill by a large majority is assured, although the substitute proposed by the Democrats will command a larger vote than it did in the last Congress.

The Committee on War Claims will have a day following the disposition of the Oleomargarine Bill and the latter part of the week will probably be devoted to consideration of the Indian, Postoffice or Army Appropriation Bill, or of such other bills as may be reported earlier in the week.

The Irrigation Bill also occupies a place of vantage on the Senate calendar, and with the other bills mentioned out of the way, will be pressed to the front.

**THE PRESIDENT'S SON.**  
IS HOLDING HIS OWN.  
WASHINGTON, Feb. 9.—The condition of Theodore Roosevelt, Jr., shows no change of any importance, and it is probable, in the nature of the illness, that it will be several days or more before the outcome will be apparent. The President is not likely to return to Washington until at least the end of the week. This evening the White House was held by the following message, received from Groton:

"The President saw his son shortly after arrival here. Boy's condition is not such as to warrant his return to the White House."

**THE DAY AT GROTON.**  
BY THE NEW ASSOCIATED PRESS—P.M.  
GROTON (Mass.) Feb. 8.—President Roosevelt, upon his arrival at the Groton School, this afternoon, did not find his son, Theodore, Jr., alarmingly ill with pneumonia, but the boy's condition was not sufficiently reassuring to warrant the President's immediate return to the national capital.

Young Roosevelt, with two schoolmates, Horace B. Potter and William G. Arnold of Providence, both having pneumonia, are lodged in large, airy rooms on the second floor of the college dormitory. The school has been dismissed, and the 150 boys have been scattered to their homes upon an enforced vacation. All the sick boys are having the best medical attention and nursing. The President's stay here is indefinite, although it is not believed it will be prolonged much after Wednesday, unless the boy's condition takes a change for the worse.

The President arrived here at 3:15 o'clock this afternoon. Rev. S. Endicott Peabody, principal of the Groton School, was at the Groton station to meet him, and with him was Rev. Scherrard Billings, his assistant. The President, with Secretary Cortelyou, immediately jumped into a two-wheeled wagon, and thence drove the party rapidly up the hill to the school building.

Mrs. Roosevelt was at the window as the President drove past into the yard, and greeted him as he mounted the stairs. The two immediately went to the sick boy's room, and the President was delighted to find that his son's condition was very good, and that he was overjoyed to see his father. The President did not remain long, however, as

### FIRST CONVENTION BROUGHT TO A CLOSE.

WOMEN'S MEETING IN SAN FRANCISCO A SUCCESS.

Many Good Results Expected from the First Meeting at Which All Clubs in the State Were Represented—Tribute to the Refining President.

SAN FRANCISCO, Feb. 7.—The convention of the California Federation of Women's Clubs came to an end this afternoon amid expressions of official and personal good will and satisfaction. Taking it all in all, this convention has been a remarkable one with only the best of results in the harmony, the question of the admission of colored women to the general federation. On this subject the general expression was that whatever may be the will of the national body, the California Federation will accept the decision as final and abide by it.

## AT THE CITY'S GATES

## SOUTH LOS ANGELES.

The picture given herewith is a view of the proposed new building for the Central-avenue Congregational Church, to take the place of the present small building, at the corner of Central avenue and East Twenty-eighth street. The new building is to be a two-story structure, with a frontage of 120 feet on Central avenue, and a depth of 120 feet. The plan is designed by L. B. Volk. The present building has been found entirely too small for the rapidly increasing work of the church. The organization is out of debt, and in a flourishing condition. It owns a lot with a frontage of 120 feet on Central avenue, and a depth of 120 feet. The church was organized in 1882. Rev. Charles S. Valle, now of Claremont, being its first pastor. Rev. James Parsons of Holland, Iowa, was the second pastor, and was followed by Rev. N. L. Rowell, D.D., who is now in his fourth year here. Dr. Rowell was for five years pastor of the Old South Church, New York, and also spent several years in the ministry in Boston. In California he has held pastorate in San Francisco and Oakland, at which latter place he built a handsome church, and at Redondo. Under Dr. Rowell's ministry the Central-avenue Church has grown rapidly, and the plans for the new building are being carried on.

and the latter will build a \$1500 residence thereon for his own home.

Dr. Lincoln Rogers and family now occupy their handsome new residence, corner of Central avenue and Twenty-first street. The Rogers family have also moved into their new home at No. 1094 East Adams street.

## GARVANZA.

S. C. Campbell-Johnston has filed with the City Council a petition asking for the advertising of a franchise for an electric railway from the junction of the present electric line and Mountain avenue, along Mountain avenue to the city limits. This is preliminary to the plans for the building of the Campbell-Johnston road, using the tunnel and the toll road, and entering Pasadena on Grand avenue, a saving of two and a quarter miles over the route via the Ostrich Farm and the Raymond. If the franchise is granted, Mr. Johnston expresses confidence that the road will be in operation at least as far as the Church of the Angeles inside of ninety days. The tunnel will have to be enlarged before it can be used for cars. Citizens of the Annandale school district, whose schoolhouse is situated

weeks, has been staying with his father-in-law, J. D. Pike, who has gone to Fresno, to engage in the raisin packing.

## VERNON.

Wednesday was a high day for the Lady Macabees of this locality. In the afternoon at Akey's Hall Lady Macabees met and entertained visitors. The guests of honor were the State Lady Commander, Mrs. Minnie Walker, and the State Lady Commander, Mrs. Walker. There were also present visitors from Idaho and the neighboring states. There was an initiation and the State Lady Commander gave instructions on the new work, and a review. After the session the ladies retired to the banquet room, which was prettily decorated, and enjoyed an elaborate spread. At the tables, before being seated, Mrs. Nellie Radmacher, on behalf of the hive, presented a beautiful opal ring to Lady Commander Dellinger, in recognition of her faithful work for the order. After the banquet Lady Macabees adjourned to the home of Mrs. Walker, where they were entertained by Mrs. Walker and her guests. Mrs. Walker also served a supper.

Petitions are circulated for the improvement of East Fifty-third street from Central to McKinley avenues. The required amount of frontage has been secured for the improvement of East Forty-sixth street from McKinley avenue to Zamora street. Mr. Sweetapple of East Thirty-eighth street has purchased a lot on Central avenue near the Akey residence, and will build.

## UNIVERSITY.

The proposed payment to the Traction company of the \$2000 bonus ascribed for the building of an electric line on the University of Southern California is causing a stir.

These parties claim that it was expressly stipulated that the bonus was to be given to the Los Angeles Railway Company. Jacob Adkins, who was the prime mover in the scheme, and who has the document in his possession, claims that the bonus was to be turned over to the property owners who refused to pay their subscription, on the ground that the contract would be void by transfer to the Traction company.

## The Bowling To

## TOMPKINS' MANY PRIZES IN BOWLING.

SAKE EVERYTHING OF VALUE THAT WAS OFFERED.

Santa Monica Bowlers Win the First Place by a Safe Margin—Complete Record of Pins Bowled by Every Tournament Player.

The winter tournaments of the Southern California Bowling Association closed last week, and the winners of the various tournaments have received their prizes. The tournament also ended according to the schedule, but the prizes in that event have not been given out, owing to the fact that the Oaks have three games yet to bowl with both the Angeles and the Santa Monica teams. These were not finished according to the program, because S. F. Dyer, a member of the Oaks, has not yet returned from the east, where he went as a delegate to the American Bowling Congress. When he returns the games will be finished, and the prizes given out.

As predicted several weeks ago, the Santa Monica team won all the special prizes offered. The high average, most games, splits and spilt scores. The number of pins bowled by each team and player is as follows, all teams playing thirty games.

## SCHARMAN'S DOGS TAKE TWO COURSE STAKES.

### ST. IVES AND CHICAGO BOY ARE THE WINNERS.

Their Two Kennel Mates Ran Second in Both Stakes---Short-ends Were Much in Evidence---Big Crowd Present to See the Sport.

G. Scharman and his good dogs from San Francisco carried off the lion's share of the honors and the stake money at Coursing Park yesterday, for the dogs ran one-two in both of the courses on the card. The sport was excellent, for the best hounds in this end of the State contested, and the biggest crowd of the season watched the events. The ground was in good condition, and the weather was perfect.

A sufficient number of short-ends were present to keep the betting going, but favorites landed most of the races. The first course of the reserve stake was run at 1:20 o'clock, and the results of the two stakes were as follows:

Reserve Stake---Kansas City beat Chubby Boy, Racy Rose beat Dick L. Jolly, Purser's Best beat Bill Nye, Jack the Bum beat Madeline, Pollard, Royal Tush beat Victor King, Angie Mae beat Wildmore, Young Fleetfoot beat Dan, Bobby Burns beat Lady Edith, Pussies beat Miss. # The Success of a Bold Pasadena Bear Hunter in Yukon Territory

Attorney Benjamin W. Hahn of Pasadena has a big grizzly bear in his office to receive clients. The grizzly, whose weight was some seven or eight hundred pounds when there was meat in his skin instead of exoskeleton, stands about two feet taller than a tall man. She is mounted in an erect posture, just as she reared after Hahn shot her near Dalton Post, "way up in the Yukon Territory."

You have to go a long way from Pasadena to find a big bear wild. Hahn left here last August. He went up the coast pretty far to the Arctic Circle. Porcupine City was the bear's postoffice. Thence there is a canoe trip by Pyramid Harbor and along the Chilkat River and a tramp over the Dalton trail to Dalton Post. Hahn had a stick Indian with him, but the stick man stuck when he learned that his employer was in search of grizzlies. He had a family with whom he had looked forward to see during the winter. So the attorney left the Arctic Circle, and he went home, but he was going home about seven miles from Dalton Post, Hahn heard a crackling in the brush at the side of the "blind" Indian trail which he was following.

fine records were made. The Oxford and Northford competitors are doing excellent work, and will capture many of the best prizes. Harry Coulter of the best prices. Harry Coulter of the best prices. Harry Coulter of the best prices.

The Los Angeles Sharpshooters held their regular shoot yesterday on the Round Hill range, with the following scores: Champion class---Singer, 204; Frick, 188; Marquis, 178; Malar, 145. Expert class---Harper, 202; Fiddings, 180; Hishel, 188; Hauerwasser, 175; Westcott, 174. Country Club course. Little is being done in yachting circles of particular interest is that a Mr. Stewart, a new member of the South Coast Club, has placed a boat for sale. Joe Fellows to build a Sea Bird, the new 18-footer that is creating so much talk in the East.

The Horseshot easily beat the Crecenta at baseball on the Echo Park grounds yesterday by a score of 15 to 0. The feature of the game was the pitching of C. Schram for the winners.

## HERRERA AGAIN TO TAKE ON HEGARTY.

WILL FIGHT TWENTY ROUNDS IN BAKERSFIELD.

Purse and Side Bet of Five Hundred Dollars Will Be Fought For---Weight One Twenty-eight---Many Think Herrera May Win.

Aurilia Herrera, the Bakersfield fighter, and "Tim" Hegarty, who came all the way from Australia to get knocked out by Lavigne at Oakland, have agreed to fight a return match in Bakersfield on the night of March 2. It will be remembered that when the men met on a previous occasion, Hegarty was the victor.

The Pacific of the M.W.A. of this city went to Santa Ana yesterday and defeated the team of that town by a score of 4 to 1. Starting twice, the Pacifics and Mallett for the Anaas, and the game was a very good one. Many spectators were made, and hits were few and far between.

## GOOD SCORES MADE AT GUN CLUB SHOOT.

VAUGHN FINISHES FIRST IN THE SEVEN EVENTS.

Large Number of Entries, but Very Few Clean Scores Were Made During the Day---Shooting to Be Continued Every Sunday.

The first winter shoot of the Los Angeles Gun Club was held yesterday on the club grounds west of this city, and proved very successful. A large number of sportsmen participated, and a number of spectators were present. The shooting was in the morning, and the weather was perfect. The results of the seven events were as follows:

most exclusively, taking an airing in the Bois de Boulogne, "just as the sun goes down."

What is true of Paris is true, likewise, of the larger German cities, especially of Berlin, Vienna, Dresden and Frankfurt. The first man to introduce American trotters into the latter city was Mark Livingston, a Jewish merchant and stockbroker of San Francisco, who began his business life in 1852 with a pack of dry goods on a mule in the mining camps of Siskiyou and Trinity counties. He took over Lady Dooley, 2:31, and Soldene, 2:34, when he went to Frankfurt to live; and the swash he cut there, thirty years ago, is well remembered by the survivors of that era. Now Isaac Dahmann sells from \$150,000 to \$200,000 worth of American-bred trotting horses every year of his life, in the four German cities above mentioned, to say nothing of the smaller dealers who have their offices and repositories in Boston, New York and Philadelphia, and who make most of their shipments in April and May across the Atlantic.

At first thought, German and French consumers wanted nothing but natural and pure-gaited trotters. All such horses were imported from America, "scalpers" and "shin boots," they would not touch with a ten-foot pole. However, the German fellows found he did not afford to pay \$1500 for a pure-gaited horse, so he took one at \$800 that was a cross between a German and a French consumer, and he was successful.

Some months ago, a Mr. Fitzpatrick (with whom I have no personal acquaintance) came into this neighborhood and bought up two carloads of home-bred horses at prices ranging from \$180 to \$200. These he landed in France in September, at an average expense of \$120 a head, and sold them in the next six weeks at prices ranging from \$200 to \$300 for spot cash. What this man did others can do, but they must be careful to pick out sound horses in the first place, because the French and German veterinarians are very strict, and will not pass any unsound animals.

Col. Sanders D. Bruce, founder of the Turf Field and Farm newspaper, and author of "The American Horse," died in New York of the last inst., at the ripe age of 77 years. He was born in Kentucky, and was a member of the family that crossed the Alleghenies under the leadership of Boone.

What Shall We Have for Dessert? This question arises in the family every day. Let us answer it here. Try a delicious dessert. Prepared in two minutes. No baking. Add hot water and stir to cool. Lemon, Orange, Raspberry and Strawberry. At your grocer's, 10 cents.

## HIDALGO'S GOSSIP.

Since my return home I have been besieged by letters, many of them written by parties with whom I have no personal acquaintance, inquiring about the results of my trip to England and France as a trotting and pacing-bred horse. As I cannot afford to keep a stenographer and typewriter, I take this method of answering their manifold inquiries.

## A Great White Thrush.

Will be the subject of a dramatic play at the Biltmore tonight, 8:30. A Broadway. Come and hear him.

# The Safe, Certain and Scientific Treatment for "Weakness"

O. C. JOSLEN, M.D. STRICTLY RELIABLE.

That disorder commonly known as "weakness" has for years and centuries baffled the efforts of physicians, yet the only day a majority of doctors have been able to cure it, is the day when the patient is cured by the use of the "Safe, Certain and Scientific Treatment for 'Weakness'."
